DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dennis LaPointe on December 5th, 2005.

Claim 5 has been amended as follows:

Lines 3-5 have been deleted.

In line 6, "each portable axle and tire assembly comprising:" has been changed to --assembling a plurality of axle and tire assemblies by:--.

In line 7, "a pair of spaced-apart rims" has been changed to --providing a pair of spaced-apart rims--.

In line 11, "a pair of springs" has been changed to --providing a pair of springs--.

In line 13, "a saddle assembly" has been changed to --providing a saddle assembly--.

In line 20, "an opposite end" has been changed to --providing an opposite end--.

In line 22, "and" has been deleted.

In line 23, "means for temporarily attaching" has been changed to --providing means for temporarily attaching--.

Art Unit: 3616

In line 24, --, and attaching a plurality of at least two of the portable axle and tire assemblies in a spaced-apart relationship to each longitudinal beam of the frame of the manufactured building to be transported.-- was inserted after “transported”.

Allowable Subject Matter

2. Claims 1-7 are allowed.
3. The following is an examiner’s statement of reasons for allowance: The prior art does not disclose the portable axle and tire assembly or the method of transporting a manufactured building over the road according to claims 1 and 5; therefore, claims 1 and 5 are allowable as they recite a portable axle with a pair of rims, hub extensions, vertically aligned yolks, and springs, and a saddle assembly receives the longitudinal beam of the frame of the manufactured building to be transported.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lindsay, Becker, and Shave disclose similar tire assemblies to transport manufactured buildings.
